

JEBPLUS SDN BHD

ENVIRONMENTAL POLICY

In recognition of the fact that we develop and manufacture polymer based products, we will implement an environment management system based on the following: -

Compliance

We are committed to comply with all local environmental regulations, legislations and customer specified requirements.

Prevention

We will strive to prevent or minimize any detrimental environmental impacts as a results of our activities. We aim to:

- a. dispose scheduled wastes via appropriate methods;
- b. control air and water pollution from our processes;
- c. minimize and recycle our wastes, where possible;
- d. Take into consideration environmental issues at source during design, purchasing and implementation of new processes.

Continual Improvement

We seek continuously improve our environmental management system to ensure that it is up to date and always in line with the factory's activities.

Communication and Information

We are committed to create awareness among our employees to ensure defined procedures are followed. We will encourage our sub-contractors and vendors to consider Environmental Management System within their own operations.
